# hp + chrome enterprise

A more simple, secure way to use the cloud[1]

simply cloud

Boost your cloud-centric workflow with the HP Chrome Enterprise[2] portfolio. Sleek, easy-to-use devices loved by business pros are coupled with comprehensive manageability and endpoint security that makes IT's job easier. **Because simple is always better**.

simply work

A simple, powerful way to work

HP Chrome Enterprise adapts to the way your users work, whether it be on the go or at their desk. Multi-task nimbly and smoothly with access to millions of apps[1] like Microsoft Office 365, G Suite, SaaS apps, and more on robust, beautiful devices that boot in under six seconds.

A simple way to secure what matters

Keeping your endpoints safe from evolving cyber threats is easy with multi-layered, hardware-enforced devices, data and identity security, AI-driven threat detection, sandboxing, anti-theft protection[1], automatic updates and a self-healing, read-only OS.

simply secure

simply manage

A simple way to manage

Seamlessly integrate devices into your environment in minutes with the perpetual Chrome Enterprise Upgrade[2] that enables 200+ policies and support for Active Directory and leading VDI and enterprise mobility management solutions[3].

94% *of workers consider browser-based apps easier to use than desktop apps*

Workers spend more than **4hrs** *per day on their web browser*

The HP Difference

- Professional, sleek and long-lasting devices designed with global availability

- Compatibility-tested HP commercial displays and accessories[7] like USB-C™ docks, mice and keyboards, collaboration tools, and more

- Professional, world-class limited warranties, PC lifecycle support, and HP Care Pack Services[4]

- With HP Device as a Service (DaaS)[5], get a complete solution that combines multi-OS hardware, analytics and lifecycle services to optimize your IT assets and resources

Meet the HP Chrome Enterprise family

HP Chromebook Enterprise x360 14E G1

Be a productivity powerhouse and set a new style standard with a beautiful, 16 mm-thin device that has up to an Intel® Core™ i7 processor[6], 360° hinge for notebook, stand, tent, and tablet modes, a narrow-bezel touchscreen display and more.

HP Chromebox Enterprise G2

Be a frontline champion with a compact desktop that unlocks more Chrome OS business capabilities for quick data access, supports dual 4K displays through HDMI and USB-C™ ports, and can be easily mounted to a display, wall, or arm.

HP Chromebook Enterprise 14A G5

Excel in the field and in the office with a diagonal Chromebook Enterprise device that features a durable 19mm thin[7] design with MIL-STD 810G7[8] and IP418[9] testing, the latest AMD processors and universal USB-C™ compatibility.
